PROFILE SUMMARY

Dynamic Data Scientist with almost 3 years of experience in crafting **Generative AI Solutions**. Proven expertise in **Python applications, Rest APIs , AI/ML, Agentic AI & ETL** with a track record of improving efficiency and reducing costs. Adept in **AWS and Google Cloud** to deploy and manage native cloud applications. **Experienced in prompt engineering , RAG & Agentic AI** , using advanced AI models to optimize content generation and automate complex workflows.

SKILLS

Primary Skills : Backend Development (FastAPI/Flask), Microservices , REST API development ,Data analysis, Data Curation , AI agents Inferencing , ETL , RAG
Languages: Python, SQL (Postgres , MySQL) , NoSQL (MongoDB)
Frameworks: Flask, **FastAPI, Pytest , LangChain, LangGraph** , LCEL , Pydantic AI ,Ollama, Pytorch , Transformers ,
Libraries: Pandas, Numpy, Seaborn, Matplotlib, scikit-learn , Pytorch ,Transformer , trl , Open AI , Google , Hugging Face, Pydantic, Requests, BeautifulSoup, SQLAlchemy, Selenium , NLTK , AWS cloud formation, Terraform, IaC, AWS SDK

EXPERIENCE

Data Scientist (Gen AI) May 2025 - Present
Yash Technologies Pune, IN
• Implemented POC on different Vision Model for Cloud Cost Estimation

Senior Software Engineer (Gen AI COE) August 2022 - May 2025
Persistent Systems Pune, IN
• Implemented high-performance model-serving endpoints using **FastAPI**, reducing **response latency by 50%** & reliable delivery for AI/ML applications.
• Created and executed automation scripts to replace repetitive tasks, enhancing precision in **data retrieval by 35%** and **boosting productivity by 25%** for product development initiatives.
• Developed a **RAG chatbot** to interact with the codebase, enabling efficient code documentation and retrieval.
• Enhanced LLM inference with RAG by leveraging document chunking, embedding optimization, and similarity search, improving response **Relevancy by 40%**.
• Optimized RAG workflow by fine-tuning embeddings and retrieval strategies, **reducing latency by 30% and enhancing answer relevance**.
• Architected a data curation framework to aggregate and process datasets from multiple sources, **enabling 40% faster data integration to fine-tune LLMs, and improving the processing accuracy by 30%**.
• Designed and integrated an **LLM model evaluation pipeline**, automating response quality assessment and **improving answer relevancy by 35%** using Python, LangChain, RAGAS and evaluation metrics like BLEU and ROUGE

PROJECTS

Solar Scan - LLM powered Code retrieval RAG | Python, FastAPI, Google Gemini,FAISS,Sqlalchemy ,Pydantic ,Postgres
• Developed a chatbot to interact with the codebase, enabling efficient code documentation and retrieval
• Implemented a PostgreSQL (PGVector) -backed vector database for scalable and efficient document search.
• Integrated Google Gemini AI & Ollama for hybrid retrieval, enabling seamless local and API-based inferencing.

SmartATS- Automated Resume Review Tool | Python , Streamlit , Google Gemini AI , PyPDF2
• Developed an Automated Resume Review Tool using Python, Streamlit, and Google Gemini AI, improving resume evaluation efficiency by 40% by automatically assessing keyword matches, missing qualifications, and overall alignment with job descriptions.

Cuisine Curator | Python, FastAPI , BeautifulSoup , Chroma DB, pydantic ,Numpy , Sklearn
• Developed a High-Performance Recipe Search API using FastAPI with a Back-end Vector Retrieval Model with Fast-API serving a REST API
• Developed different Crawlers to scrap data from the different sites
• Categorized the Recipes with there cuisine and meal type Having sub-seconds response time for retrieval

EDUCATION

Bachelor's of Engineering in Computer Engineering Pune,IN
PES Modern College of Engineering , Pune August 2018 - July 2022

CERTIFICATION AND AWARDS

AWS Cloud Practitioner - Amazon Web Services -Issued April 2024 - Expires April 2027
High Five Individual Award: For building multiple frameworks across teams (Data Automation and LLM) and improving results through CI/CD.
Bravo Team Award: Guided and mentored team members, fostering a collaborative and productive environment.
